Personal Profile

Aspiring Software Engineer with a strong passion for building elegant and user-centric web applications. Proven ability to transform complex problems into intuitive digital experiences through clean and efficient code. Eager to contribute to collaborative projects and continue learning within a dynamic team.

Key Skills

Languages: JavaScript, HTML, CSS, Python, TypeScript, SQL

Frameworks/Libraries: Next.js, React, Rails, SASS, TailwindCSS

Tools & Platforms: Git, GitHub, VS Code, Vercel

Projects

Client Work

Jelani-Africa (Insurance Agency) |

Built a responsive, full-stack website to establish a professional online presence for an insurance agency. My contributions included developing the front-end architecture and implementing back-end logic.

Tools/Technologies: HTML, CSS, JavaScript, Python

Personal Projects

Machines |

Designed and implemented a conceptual platform for car enthusiasts to buy and sell vehicles.

As the sole developer, I was responsible for the UI design and all front-end functionality.

Tools/Technologies: HTML, CSS, JavaScript

Brain Freeze |

Created a vibrant and responsive website for a local ice cream shop with a focus on a fun user experience.

As the sole developer, I handled the complete design and development from concept to deployment.

Tools/Technologies: HTML, CSS, JavaScript

Expense Tracker |

Developed an intuitive tool to monitor income and expenses for effective budget management.

My role involved implementing the core logic for data tracking and display.

Tools/Technologies: HTML, CSS, JavaScript

Education

Software Engineering Bootcamp

Moringa School

Completed an intensive, full-time program focused on building full-stack applications with modern technologies. The curriculum covered fundamental computer science concepts, front-end development with JavaScript frameworks, and back-end development with Ruby on Rails. My portfolio, which includes my completion letter, can be viewed at tjay-earl-portfolio.vercel.app.
