Hiring Manager

North CarolinaBN (Remote)

Dear Hiring Manager,

I'm writing to express my interest in the Adventure & Experiential Travel Consultant position. With a strong passion for helping people create meaningful travel experiences, combined with excellent communication and organizational skills, I'm confident in my ability to support your mission of delivering unforgettable journeys to your clients.

Although I may not have traditional travel agency experience, I bring a natural talent for understanding individual needs and crafting solutions that feel personal and thoughtful. I'm highly adaptable, tech-savvy, and comfortable working remotely. My ability to listen, stay organized, and respond quickly makes me a strong fit for client-facing roles—especially in the world of experiential travel, where every detail matters.

What excites me most about this opportunity is the chance to guide others through adventure planning that goes beyond ordinary tourism—creating trips that truly reflect the spirit of exploration and personal connection. I'm eager to grow in this space, learn from your team, and contribute with passion and consistency.

Should I be selected for an interview, I kindly request that we conduct it via video call, as I'm currently available only for remote communication.

Thank you for considering my application. I look forward to the opportunity to contribute to your team and help travelers turn their dream adventures into reality.

Warm regards,

Tjay Earl
