**Hiring Manager**

Pixar Animation Studios

1200 Park Avenue

Emeryville, CA 94608

**Dear Hiring Manager,**

I am excited to apply for the Software Engineering position at Pixar Animation Studios in Emeryville. With a solid foundation in software development and a passion for building innovative, user-focused tools, I am eager to contribute my skills to one of the most creative studios in the world.

I have experience developing full-stack applications using HTML, CSS, JavaScript, Node.js, and React, along with API integration, performance optimization, and responsive UI design. My work blends technical problem-solving with an appreciation for design and storytelling—qualities that align with Pixar's tradition of pushing the boundaries of animation through technology.

Pixar's ability to merge artistry with engineering to tell unforgettable stories has long inspired me. I admire your dedication to innovation, collaboration, and emotional storytelling, and I would be honored to help create the tools that bring these stories to life.

I would welcome the opportunity to discuss how my skills and creativity can contribute to Pixar's mission. Thank you for considering my application, and I look forward to the possibility of joining your team.

**Sincerely,**

Tjay Earl
